Re: Formal Request to Proceed With OK Permits under Nevada Star Resources Corp.

Dear Sir:

Nevada Star Resource Corp. (NSRC) recently completed the purchase of the OK Project from Centurion Mines Corp. (now dba Grand Central Silver Mines Corp.). In a separate transaction, NSRC also purchased properties located south of the OK Mine held by Cortex Exploration.

We hereby formally request the Original OK Reclamation and Mining Permit application, previously submitted for the project in the name of Centurion Mines Corporation, be reviewed and completed under the name Nevada Star Resource Corp. NSRC is incorporated in Nevada and licensed to do business in Utah.

NSRC understands its obligation to reclaim disturbances related to the project incurred by Centurion Mines Corp.

Engineering work at the properties is ongoing and construction of the SX/EW facilities may commence as early as permits allow. Utah Ground Water Permit UGW010005 has already been transferred and is now complete.

Sincerely,

NEVADA STAR RESOURCE CORP.
